ROC04230001

Inspired by the Italian Breccia Capraia marble from the Apuan Alps in Tuscany, this series offers a white background interlaced with distinctive veins, displaying shades from pink cyclamen to deep purple, and hints of gold, gray, green, and blue. Advanced technology allows porcelain tiles to mimic marble's intricate colors, veins, and textures with enhanced durability. This collection unites beauty and innovation, ensuring each project stands out with its own signature style.

FPN01HS38

Corten steel, developed in the 1930s for railroad construction due to its corrosion resistance, has since inspired the decor world with its rusted appearance, reddish hues, and industrial feel. The Fire Series perfectly captures these characteristics and weather reactions, lending a natural wear look to porcelain.

FPG00MR1011

Steel is now a prominent feature in architecture, not only for structural uses but also for covering surfaces. The Iron Series offers a new take on steel with graphite tones and light oxidation marks, emphasizing its industrial feel. Available in large porcelain tiles ideal for floors and walls, it comes in Micro Crystal and Soft Touch finishes. This series captures the steel's look and nuances, ensuring ease of use and low maintenance.

FIX02HS161

The Nero Caressi Marble, renowned for its nobility with its black background and white veins sourced from Turkey, has inspired a series that captures the delicate and continuous vein contrast against the absolute black, highlighting its natural beauty. The polished version features an unparalleled shine thanks to Micro Crystal technology, adding elegance, while the matte finish emphasizes the sophisticated black and white contrast.

White marble is a classic in architecture and serves as an inspiration for timeless projects. The Phanteon Series SuperFormats slabs feature a white background with abundant grey veins. Like all XL Slabs, they can be applied to floors, walls, and countertops. The rectified edge finish ensures minimal, nearly imperceptible joints, reinforcing the appearance of natural stone.

The Rosso Lepanto Marble, quarried in Turkey, boasts a deep cherry-red background with striking white veins, making it one of the rarest and most desirable marbles in nature. The Rosso Lepanto Series porcelain tiles, inspired by this natural stone, replicate its nuances and design variations. The large format of the slabs enhances the rock's natural beauty, allowing for applications on floors or walls with nearly imperceptible joints or for use in cladding.

Marble has long been a desired material in architecture for its timeless beauty and diverse patterns. Roca enhances its exotic marble collection with carefully selected rocks from India, Turkey, and Italy, prioritizing environmental responsibility in its extraction process. Leveraging advanced technology, their porcelain tiles faithfully replicate the look and feel of marble, including its color nuances, veins, and textures, and provide superior performance to natural stone. This approach marries beauty, technology, and sustainability.

ROC048B00261

The Nuage series showcases the texture of Calacata Bianco, a classic marble in architecture. Its soft greyish veins flow and dissolve like clouds on the uniform white surface. It offers two unique finishes: Micro Crystal for intense shine and Soft Touch for a soft feel. Like all Roca SuperFormats, they are suitable for floors, walls, and countertops. The rectified edge finish enables application with minimal, nearly imperceptible joints, enhancing the natural stone appearance.
