Diamond Herringbone	17.22	20	54
Brick	2.58	11	54

Porcelain Mosaics - Pressed

Characteristics:

- Manufactured by pressing clay and other materials into molds.
- Often have rounded or cushioned edges.
- Slightly less precise than cut porcelain.

Considerations:

- Surface: May have more texture; good for slip resistance.
- Dimensional Accuracy: May show minor variation; use spacers carefully.
- Design Options: Widely available; cost-effective.

Installation Tips:

- Use a high-quality thinset mortar (white for light colors).
- Be sure to level substrate; pressed mosaics can amplify uneven surfaces.
- Choose sanded grout for joints over 1/8".
