Colored-Body XL Slabs

ENGINEERED PORCELAIN SURFACES

COLORED-BODY XL SLABS

ENGINEERED PORCELAIN SURFACES

Crafted to create elegant, seamless spaces, the collection balances natural beauty with modern versatility, making it an ideal choice for both residential and commercial environments. Whether used individually or combined, these timeless looks provide the perfect foundation for sophisticated interior and exterior designs.

FEATURES AND BENEFITS

STAIN RESISTANT

The ultra-compact composition of Micro Crystal porcelain significantly reduces surface porosity, helping prevent the absorption of liquids, stains, and everyday residues. This advanced protection makes cleaning easier, enhances hygiene, and preserves the original appearance of the surface over time, even in high-use environments.

SCRATCH RESISTANT*

Engineered for superior everyday durability, Micro Crystal technology provides enhanced resistance to surface wear and scratching. Its advanced crystalline layer helps maintain the beauty, shine, and integrity of the surface over time, even in demanding residential and commercial applications.

RESISTANT TO HIGH TEMPERATURES

Engineered to withstand extreme heat, XL Slabs do not burn, deform, or release smoke or toxic substances when exposed to high temperatures during everyday use. This makes them an ideal surface solution for kitchens, fireplaces, and other demanding residential or commercial applications.

RESISTANT TO LOW TEMPERATURES

XL Slabs are designed to perform under extreme cold conditions without cracking or losing their structural integrity. Their low water absorption and high durability make them highly resistant to frost, thermal shock, and sudden temperature changes.

SAFE FOR FOOD CONTACT

XL Slabs are completely safe for direct contact with food, as they do not release harmful substances or contaminants. In addition, XL Slabs incorporate an innovative silver nanoparticle additive into the glaze, helping eliminate up to 99% of viruses and bacteria for enhanced surface hygiene and protection.

ULTRA-HYGIENIC SURFACE

The advanced composition of XL Slabs makes them highly resistant to stains, chemicals, and household cleaning agents. Their non-porous surface allows for deep and effective disinfection using a broad range of cleaning products, making them an ideal choice for kitchens, bathrooms, healthcare facilities, and high-traffic environments.

LIGHTWEIGHT & VERSATILE

Despite their large format and exceptional durability, XL Slabs remain surprisingly lightweight compared to many traditional surface materials and interior cladding solutions. Available in 7 mm and 12 mm thicknesses, they offer greater versatility, easier handling, and more efficient installation.

UV & WEATHER RESISTANT

Made from 100% natural raw materials, XL Slabs maintain their original appearance even when exposed to direct sunlight, humidity, or extreme weather conditions. Their colors remain stable over time without fading, making them suitable for both indoor and outdoor applications.

HIGH BENDING & LOAD RESISTANCE

Manufactured with advanced porcelain technology, XL Slabs feature a high modulus of rupture, providing outstanding resistance to bending, pressure, and heavy loads. Their structural strength ensures long-term durability and reliable performance across a wide range of architectural applications.

Technical Specifications

CHARACTERISTICS	STANDARD	DECLARED ASTM
Water Absorption	ISO-10545/3	≤0.5%
Break Strength	ISO-10545/4	Min. 200 N
Chemical Resistance	C650	Unaffected
Stain Resistance	ISO-10545/14	5
Frost Resistance	C1026	Resistant
Thermal Shock Resistance	ISO-10545/9	Resistant
Crazing Resistance	ISO-10545/11	Resistant
Group	See FAQ's	4
PEI- Glazed Tiles	C1027	PEI V*
Dynamic Coefficient of Friction (DCOF)	A326.3	≥0.42**
Shade and Texture Rating	CTDA	V3
Facial Dimensions	C499	Pass
Range of Thickness	C499	Pass
Warpage	C485	Pass
Wedging	C502	Pass

*PEI V - only applies to 12mm products, PEI IV - Bianco Reale 7mm, PEI II - Pietra Gray 7mm

**DCOF for matte ≥0.42, polished and satin <0.40

Packaging Info

Size / Thickness	SF per carton	PC per carton	LBS per carton	SF per pallet	BX per pallet	LBS per pallet
63"x126" R - 12mm	55.11	1	342.70	1,102.22	20	6,853.84
63"x126" R - 7mm	55.11	1	193.72	1,983.96	36	6,974.06

Finish

Polished

An exceptionally bright, mirror-like finish that enhances color depth and surface detail while creating a highly reflective, sophisticated appearance.

Matte / Unpolished

A smooth, low-reflective finish with a natural, understated appearance. Its soft visual character enhances the authenticity of stone-inspired designs and creates a refined, contemporary surface.

Satin

An ultra-smooth finish with a subtle sheen and soft-touch feel, combining a refined appearance with a pleasant tactile quality.
