ROC04D00042

The Arcano Series brings the natural expression of Mediterranean stone. The grayscale texture faithfully reproduces the slightly marked veins and irregular fragments of sedimentary rocks, characteristic of this type of stone. Mineral Lab's exclusive technology uses a special granite that creates impressions and reliefs with surprising effects. Composed of noble minerals, it is applied with millimeter precision on porcelain stoneware, offering slip resistance, without the roughness of non-slip products.

ROC042300021

Inspired by the Italian Breccia Capraia marble from the Apuan Alps in Tuscany, this series offers a white background interlaced with distinctive veins, displaying shades from pink cyclamen to deep purple, and hints of gold, gray, green, and blue. Advanced technology allows porcelain tiles to mimic marble's intricate colors, veins, and textures with enhanced durability. This collection unites beauty and innovation, ensuring each project stands out with its own signature style.

The Breccia Vino Series features large-format that replicate the dramatic textures of Italian marble. It caters to the High-Low design trend, allowing luxury to blend with simplicity. These tiles come in Soft Touch and Polished finishes, the latter providing a glossy, enamel layer that enhances the tile's marsala and gray colors. Versatile for use on various surfaces, they're suitable for flooring, walls, and even furniture like countertops and panels.
