

01. Abaco

Roca DECO

We are excited to present you the first edition of Roca Deco, a periodical publication that will bring you closer to the potential of Roca ceramics from innovative, technical and inspiring approaches.

The use of tiles in architecture, design and decoration goes as far back in history as each of these disciplines. There are many aspects that influence the choice of tiles as a key element in a project. Aesthetics, fashion, the needs of each historical period, research and development, technical advances and the evolution of the design have made it an essential material.

Roca DECO

This publication is designed to become a visual resource, brand new inspiration and your creative tool. A showcase for the versatility and extraordinary properties of Roca Tile ceramic materials.

Each issue of Roca Deco will focus on a collection, concept or colour created by our design and development team to bring you extra value in a visual, creative, technical and inspirational way.

Our Deco editions will always have three distinct sections: Dream, Contract and Life.

01. Abaco

DREAM

Roca Dream is an invitation to one track thinking, to get out of the everyday, to train your senses with new ways of understanding ceramics and to enhance your creativity.

We harmonize elements of different sizes, materials and textures in compositions that are ahead of the trends. Discover a visual and conceptual avant-garde collection for your creative process.

Dream ABACO

Abaco and its neutral tones are an essential resource when we are working with colour. Its role is not to dominate, but rather to receive the influence of the surrounding colours and objects.

The shades of cement are elevated to their fullest with Abaco and improved by the durability of porcelain.

The Contract pages include a carefully selected range of finishes especially developed by Roca Tile for interior design and architecture projects, presented in a visual and clear way so that you can take full advantage of their potential.

At Roca Contract you can find out all the details of the possibilities offered by Roca's collections and the materials suitable for each project.

CONTRACT

Contract ABACO

Innovative, versatile and extremely functional, each Abaco piece has a unique set of microtextures, accents of colour, depth details and relief.

The Abaco collection in the In&Out finish is the result of the ROCA Group's commitment to I+D. A soft-touch porcelain tile that can be used without any transitions, both indoors and outdoors, in high-traffic areas and even on façades.

LIFE

Roca Life is created to inspire your new projects or space refurbishment with complete solutions. Interior design ideas, selection of spaces and display of multiple combinations.

We invite you to know installations, places and rooms where the concept that we develop in each issue of Roca Deco is the main character or a key element of the examples included in this section.

Life ABACO

Abaco's neutral tones will help you accentuate your décor and bring out its most unique elements. Play with counterpoints of brightness and contrast and create stimulating spaces.

Abaco is versatile in its application with other colours and in many different styles. Its low saturation gives it the ability to combine with everything.
