About Roca

Sustainable with conviction

At Roca, our commitment to the environment goes beyond compliance with the regulations in force, taking measures in accordance with the circular economy to reduce our impact on the environment, with the reduction of material consumption and the reuse and recycling of natural resources such as water.

All Roca products can help you obtain a better score in the LEED (Leadership in Energy and Environment Design) metrics, the most widely used Green Building Certification for sustainable buildings, so that our tiles contribute to the improvement of the environmental characteristics and facilitate the sustainability certification of the buildings where they are employed.

We apply rigorous continuous improvement and sustainable criteria programs at all phases of our production processes, which are reviewed externally on a regular basis with the Integrated Environmental Authorization (AAI), ISO 14001, ISO 14021, ISO 9001, DAPcons®, GlobalEPD, UPEC and CCC certifications; as a guarantee of quality and environmental compliance of our wall and floor tiles.

Global Vocation

Roca is a company devoted to the design, production and sale of products for bathroom areas and floor as well as wall tiles for use in architecture, construction and interior design. The Group, which is entirely Spanish owned, is a bathroom materials market leader in Europe, Latin America, India and Russia. It also has a strong presence in China and the rest of Asia, the Middle East and Africa. Roca is a world leader in its activity.

Roca around the world

170 markets. 78 factories. 20 countries.

Roca Galleries

Roca Galleries are not just physical locations, but rather an entire concept that conveys the avant-garde offering and forward-looking vision of Roca. Built with the principles of design, innovation and sustainability in mind, Roca Galleries clearly showcase the leading and global brand's commitment to an ongoing discourse with society as a whole, but more specifically with professionals who share an interest and concern in cultivating the bathroom concept.

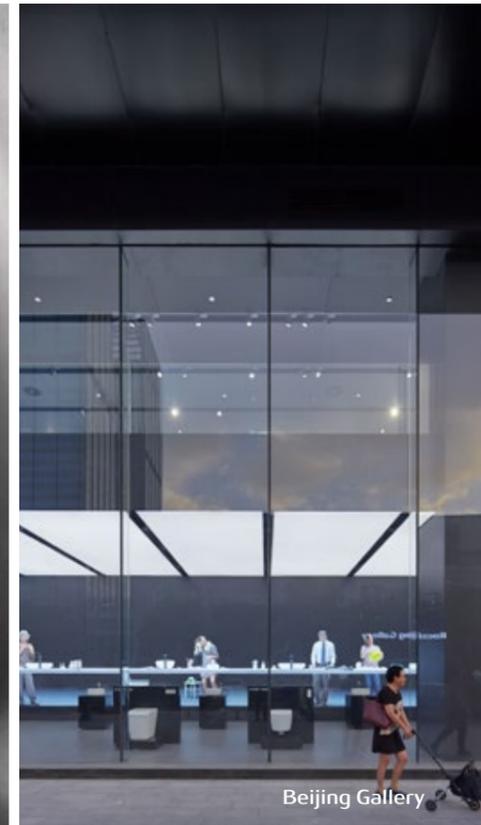

The Roca Galleries serve as a meeting place and arena for open dialogue, drawing together like-minded designers, architects and interior decorators from around the globe. Locations in London, Shanghai, Barcelona, Madrid, Lisbon and Beijing provide a multidisciplinary platform for interchange, thereby constructing a world-wide network to identify, interpret, develop and share information on new trends in the field.

Zaha Hadid Architects in London; Francesc Rifé Studio in Shanghai; Borja, Lucía and Carlos Ferrater's OAB architectural studio in Barcelona; Estudio Lamela in Madrid; Ferruz Decoradores in Lisbon; and Ma Yansong in Beijing have brought this vision to life in the Roca Galleries that combine an engaging look and true representation of the brand's values.

Hence, the Roca Gallery sites are designed as flexible, functional places to show off the wide range of Roca products alongside a broad offering of socio-cultural activities.

Product types

Ceramic Wall

Carefully selected raw materials form the basis of these collections, perfect for a wide range of interior uses. High performance ceramic surfaces, with the nuance of additional luminosity that the white-body glazing brings, offered in a variety of formats, decorative complements and special-use pieces.

Gres Stoneware

A type of porcelain with a compact, hard, and non-porous body, providing great resistance and meeting modern design.

Glazed Porcelain

Inspiring present day proposals to decorate the spaces where you work create and live, with collections of high technological innovation. Wall and floor tiles with finishes suggesting the touch and look of natural materials, with the added value of porcelain.

Color Body Porcelain

Unique collections of full-body colored porcelain tiles, with the same qualities in its interior and surface, as well as superior properties of hardness, resistance and impermeability. Their unalterable finishes faithfully reproduce the textures and reliefs of marble, wood, stone and cement in rich detail.

Polished Porcelain

Ranges of exceptionally bright rectified porcelain tiles, adding the properties of ceramics to the beauty and natural reflections of polished marble, without the need for care the porosity of stone usually requires.

Technical Porcelain

A product of the most advanced innovation and technology, this porcelain is completely vitrified and colored through its mass. Versatile in its aesthetics and performance, this product offers superior properties in resistance and hygiene.

Shade Variation

Observe the shade variation in the tile you choose

The variety of raw materials and pigments used in the composition of porcelain and ceramic products and their peculiarities can result in tiles with different fluctuations in tone or texture in their final finish.

On certain occasions, the multitude of nuances that are obtained with changes in tone, relief and detoning have the objective of mimicking the stones, wood or cement that inspire them. This variation becomes an added value to contribute to floors and walls.

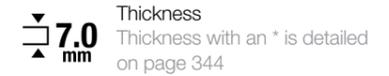

To provide information about our tiles and their chromatic diversity, we have classified them into four levels, where the pieces classified with category V1 have practically no changes in tone, detoning or texture in their finish, the classification V2 is for parts with a slight variation, V3 is when the variation is average and V4 is when there is a great complexity of shades of color, textures or significant detoning between existing pieces.

Therefore, before choosing a ceramic finish, get to know the product and its details, see in what shade variation category it is classified and choose the one that best suits the space and your needs.

Characteristics

Thickness

Recycled Content

Made with a minimum of 50% recycled pre-consumer material and may contribute to obtain LEED points.

Made with a minimum of 25% recycled pre-consumer material and may contribute to obtain LEED points.

COLOR BLOCK

Joy

Life on the move. Color bursts creating an explosion of style. A very subtle glossy texture that shapes a white body wall tile with different sources of inspiration: the horizontal alignment of subway tiles, the imperfect charm of rustic glazing and the colors of an extremely sensory palette.

TEXTURES

Chelsea

Chelsea, English rigor. Chelsea is one of the various facets offered by ceramic cement to cover not only the walls of kitchens and bathroom spaces but also those in other rooms that are full of personality. This elegant collection stands out for the neutrality of the soft cement, with the ceramic piece being the key decorative accent in any space.

Our Rockart Collection presents a high degree of shade variance inherent in natural stone products. If consistent color is required, we recommend purchasing 25% more product to achieve the greatest uniformity possible. Should you require a uniform appearance, we suggest looking into porcelain mosaic alternatives.

CONCRETES

ARMANI / Roca

The Armani/Roca bathroom concept is the expression of elegant simplicity and total harmony, both quintessential of Giorgio Armani's unmistakable style, captured in the bathroom space. An integral interior design concept which transforms the bathroom into a space dedicated to the pleasure of the senses.

CONCRETES

Derby

Derby, industrial design. With a minimalistic inspiration, Derby offers a range of full body porcelain tiles that replicate the design of marked cement where the movement of graphics plays subtly in changes of hues and less defined frames. Its porcelain finish makes it suitable both for commercial and residential applications.

Derby Gris 32"x32" R

INDUSTRIAL TEXTILES

Momentum

By merging two opposites, fabric and cement, we create the texture of our Momentum Collection that aims to blend into its surroundings in a landscape of interrupted weaves. Porcelain is the main character in this collection that proposes two ranges of cool and warm colors: Sand and Taupe, on one side, and Grey and Graphite, on the other side.

WOODS

Flamant

Vaporized wood takes shape in white veining with a worn appearance. An organic touch and the qualities of the most resistant porcelain are the keys of a range that commits to sobriety. Flamant is a floor tile that combines strength and vegetal finishes in trendy colors, allowing the creation of perspectives in ambivalent interiors.

Warranty And Conditions Of Sale

Return authorization and shipment claims

- Requests for credit or correction for errors caused by incorrect order entry or shipment must be submitted in writing and sent via fax or e-mail to the Customer Service Department within 1 month of invoice date.
- Claims as to breakage, shortage or overage in quantity should also be sent in writing to the Customer Service Department no later than 5 business days after delivery. There will be no exceptions to this policy under any condition.
- Any discrepancy should be noted on the bill of lading and verified with a signature from the driver delivering the load.
- Any claims of defects in quality shall be made in writing to Roca USA Inc. immediately upon discovery.
- Roca USA Inc. shall be provided samples adequate to test the product claimed to be defective and shall be afforded the opportunity to take its own samples.
- Notification of refused shipments must be communicated to the Roca USA Inc. Customer Service Department within 1 business day in order to process a Return Authorization form and credit the customer's account.
- Material cannot be returned without first obtaining approval from Roca USA Inc. through a Return Authorization consent form. Roca USA Inc. will only accept return of current inventoried product in full cartons and in good, saleable condition within 30 days of purchase date. A 20% restocking charge will be applied to any returned materials and customers will be responsible for the freight cost of return.
- There will be no refunds/returns on natural stone, setting materials, and special order products, as all sales are final on these items.

Shipping claims

- Unless otherwise stated on the bill of lading, the Roca USA Inc. terms of shipment are FOB origin.
- Once a shipment has left the Roca USA Inc. warehouse, the cargo is the responsibility of the consignee.
- When the shipment is picked up at the warehouse, the driver must sign the bill of lading indicating the number of pallets on the shipment. When the shipment arrives at its destination, the customer should ask the person who receives it to count the number of pallets. If there is a discrepancy in either pallet count or condition of the material, it must be noted on the bill of lading in the presence of the driver.
- Obvious damage to the shipment must also be noted on the bill of lading. Claims of this nature will not be honored unless noted on the bill of lading.
- All damaged goods must be held for inspection or until the claim is settled. Claims relating to breakage will only be accepted if the shipment has been coordinated through Roca USA Inc. Customers who coordinate a pick up through their own carrier should file claims directly with the shipping company.

Container orders

- Transportation for import container shipments is the responsibility of the consignee once they have cleared Customs at the Port of Entry, unless otherwise agreed with Roca USA Inc.
- When the shipment arrives at its destination, please inspect the contents of the container before signing the bill of lading. Obvious damage must also be noted on the bill of lading in the presence of the driver.
- Any charges incurred after the shipment clears Customs will be the responsibility of the customer. Claims of this nature will not be honored unless noted on the bill of lading.
- Please take pictures before and after unloading pallets for insurance purposes. Roca USA Inc. will file insurance claims for you if we are notified within 5 business days of receipt of the shipment.

- Title for material on Direct Container shipments is transferred upon issuance of the bill of lading. Requests for credit or correction for either damages or breakages not made within 10 business days of receipt of shipment will not be allowed. For assistance, contact the Roca USA Inc. Customer Service Department.

Quality

Roca USA Inc. is responsible only for products manufactured and packaged at locations duly authorized by Roca USA Inc. Roca USA Inc. warrants only that the products it sells will at the time of delivery meet the applicable specifications Roca USA Inc. makes. No other representations, or warranties, or quality, or merchantability, or fitness for any purpose and none shall be implied by any written or oral statements made by any Roca USA Inc. employee or agent. Any quality claims included but not limited to shade, appearance, caliber or obvious defects must be communicated before the tile is installed. Installation constitutes acceptance. Once installed, Roca USA Inc. assumes no liability for claims related to product.

Limited warranty

Roca USA Inc. warrants that its First Quality (i.e. Standard Grade) ceramic tile is manufactured according to ANSI A137.1-1988 and meets or exceeds those requirements. Roca USA Inc. makes no warranty as to the suitability of its tile for a particular installation. Roca USA Inc. does not warrant that its glazed or unglazed tile will not scratch, chip or show signs of wear. Should a tile product be determined not to conform to the Roca USA Inc. warranty, the buyer's sole and exclusive remedy shall be a replacement of the product with tile of compatible color and shade, as determined by Roca USA Inc.

Labor and installation charge are expressly excluded from this warranty. Roca USA Inc. shall not be liable under this warranty for any other damages, costs or expenses including, without limitation, any incidental or consequential damages. The warranties set forth herein are in lieu of all other warranties expressed or implied. Roca USA Inc. disclaims all other warranties including implied warranties of merchantability and fitness for a particular purpose. The use of muriatic acid (hydrochloric acid) in removing grout haze will void all warranties.

Order policy

Once you have received an order confirmation from your customer service representative, there is a 24 hour window to verify that your order is correct and a ship date needs to be provided. Material can be held for 2 weeks without shipping confirmation, after that, the following circumstances would apply:

- A 25% deposit (non refundable) is paid in order to hold material for 60 days. After 2 months of being allocated, material will be released and deposit lost.
- 100% payment of the order. In this case, product will be held at our warehouse for up to 4 months. After that, storage fees will apply.

Handling Fees

A broken pallet fee of \$65.00 will be added to orders for quantities smaller than a full pallet for 40"x80" and 48"x98" items from the Slabs series.

Tile Care

To maintain the beauty and elegance of Roca tiles, we recommend the daily cleaning of the material using conventional procedures.

To remove remains of dust and solids: sweeping or vacuum cleaning.

Do not use dust-catcher mops with silicone or wax.

The cleaning of the surface should be carried out with neutral soap and the amount of water recommended by the manufacturer.

Do not use cleaning products containing wax, brighteners or with similar additives as they may leave a waterproof layer on the tile over time that will affect its surface appearance.

We recommend the use of doormats, which should remain clean, in the entrances to tiled areas, either from the street, terraces or gardens, to avoid the entrance of abrasive elements. Special care should be taken in areas close to beaches or construction works, as sand or stones might be brought in.

We recommend placing protections on the objects that might damage the tile when dragged (metallic legs of tables, chairs, etc.), being especially rigorous with gloss and satin finished products.

Should the dirt not be removed entirely, we provide the following chart, where you may find the suitable cleaning agents for each type of dirt:

TYPE OF STAIN	CLEANING AGENT
Oil, ink, marker pen, tomato, fruit, chocolate, grease	Organic solvents: alcohol, turpentine, acetone Alkaline detergents in liquid or powder form Bicarbonate
Tar, rubber, shoe polish, paint, graffiti, wax, resins, marker pen, nail polish	Organic solvents: alcohol, turpentine, acetone
Coffee, ice cream, nicotine, wine	Alkaline detergents in liquid or powder form
Lime, cement, beer, metal deposits, soft drinks, fruit juices	Diluted acids: vinegar, hydrochloric acid
Glue, chewing gum, tyre or shoe rubber	Organic solvents: alcohol, turpentine, acetone Diluted acids: hydrochloric acid
Blood, mercromina, iodine	Oxidant: oxygenated water
Incrustations	Pressurized water

Never use any products containing hydrofluoric acid, only those indicated in the table above.

All the products in this table may be easily found in ordinary household stores and shopping centres.

Specially indicated for polished porcelain tiles:

Once the entire material has been laid and the remains of cement, pointing and other building material have been cleaned, on some polished surfaces the presence of an "oily" film can be observed due to the "stain-resistant" inertisation treatment they are given. Should this occur, Roca recommends the cleaning of the surface with drycleaning products (powder detergents), and once that fine protective layer has been removed, then clean the product as indicated previously. In extreme lighting conditions, light reflections might occur due to the high degree of brightness and the features of the product.

We recommend cleaning stains immediately.
