

04. Summer

Roca DECO

We are excited to present you with the new issue of Roca Deco, a periodical publication that will bring you closer to the potential of using Roca ceramics from innovative, technical and inspiring approaches.

The use of tiles in architecture, design and decoration goes as far back in history as each of these disciplines. There are many aspects that influence the choice of tiles as a key element in a project. Aesthetics, fashion, the needs of each historical period, research and development, technical advances and the evolution of the design have made it an essential material.

Roca DECO

This publication is designed to become a visual resource, brand new inspiration and your creative tool. A showcase for the versatility and extraordinary properties of Roca Tile ceramic materials.

Each issue of Roca Deco will focus on a collection, concept or colour created by our design and development team to provide you extra value in a visual, creative, technical and inspirational way.

Our Deco editions will always have three distinct sections: Dream, Contract and Life.

04. Summer

Roca SUMMER

Summer transforms our mood, announces the arrival of a new time to enjoy ourselves away from routine and feeds our thoughts with projects of rest and pleasure.

The warmth encourages us to renew the environment we inhabit and to turn it into a setting for experiences and encounters, for leisure and relaxation, where we can collect moments of enjoyment and make us feel good.

Summer at Roca means relax, fun, freshness, sun and sea and ceramics evocative of all that is to come.

DREAM

Roca Dream is an invitation to step away from one track thinking, get out of the everyday, to train your senses with new ways of understanding ceramics and to enhance your creativity.

We harmonize elements of different sizes, materials and textures in compositions that are ahead of the trends. Discover a visual and conceptual avant-garde collection for your creative process.

SUMMER Dream

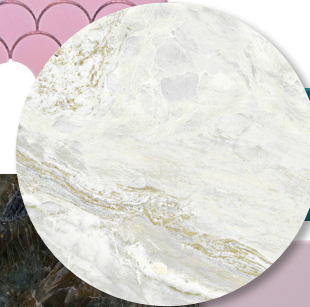

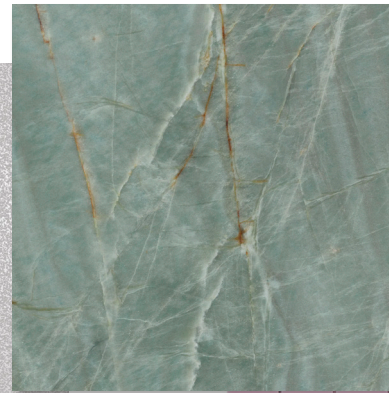

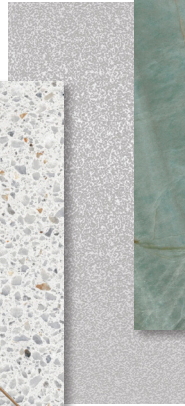

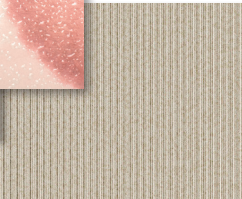

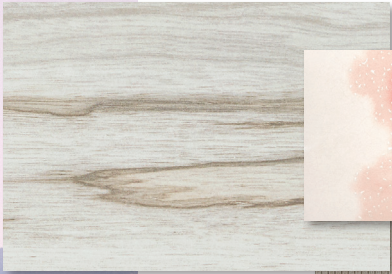

The summer spirit surrounds us with ceramic formats that adapt to surfaces and covers them with fresh tones, Mediterranean scents, far-off places, almost magical, cubist and eclectic compositions.

Observe the geometries that take presence in unusual places, ceramic scales in electric colours, tiles made of the sea and marbles that look like constellations, with a detail that invites us to become absorbed.

Summer fills us with lively colour palettes, textures and shapes to combine, observe, feel and above all, imagine.

rocatile_es

rocatile_es A orillas de la costa levantina se erige un icono posmoderno con reminiscencias de la arquitectura árabe y mediterránea firmado por el arquitecto Ricardo Bofill en los años 70: #lamurallaroja.

Escaleras, patios y puentes de colores simulan un laberinto onírico sobre una planta en forma de cruz. La potente expresividad de los rojos, rosas, azules y verdes crean efectos únicos y sorprendentes a cada paso buscando contrastar con el cielo o, por el contrario, fundirse con él.

En @RocaTile_Es nos hemos inspirado en este icono de la arquitectura moderna recreando nuestras

The Contract pages include a carefully selected range of finishes especially developed by Roca Tile for interior design and architecture projects, presented in a visual and clear way so that you can take full advantage of their potential.

At Roca Contract you can find out all the details of the possibilities offered by Roca's collections and the materials suitable for each project.

CONTRACT

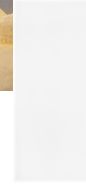

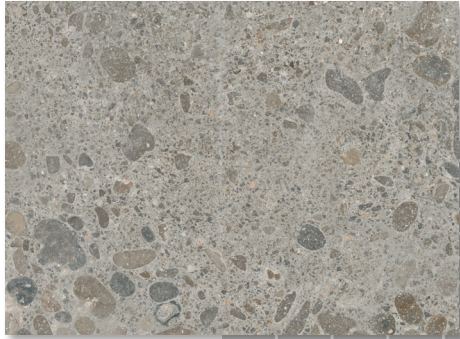

SUMMER Contract

The aseptic and unalterable properties of ceramic tiles are optimal in high-traffic areas, such as terraces and open spaces, rest areas and outdoor spaces, in tourist resting, swimming pools and other places.

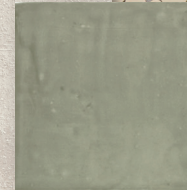

Roca Tile collections such as In & Out facilitate a continuity of ambiances without transitions between indoor and outdoor. In addition, the combinations of stone, wood, marble and decorative finishes provide high-performance interior design and architectural solutions with unique results.

Functionality, versatility and design with inspiring, radiant and beautiful floor and wall coverings that are resistant to sun and water.

LIFE

Roca Life is created to inspire your new projects or remodels with complete solutions, interior design ideas, selection of spaces and display of multiple combinations.

We invite you to contemplate installations, places and rooms where the concept that we develop in each issue of Roca Deco is the main character or a key element of the examples included in this section.

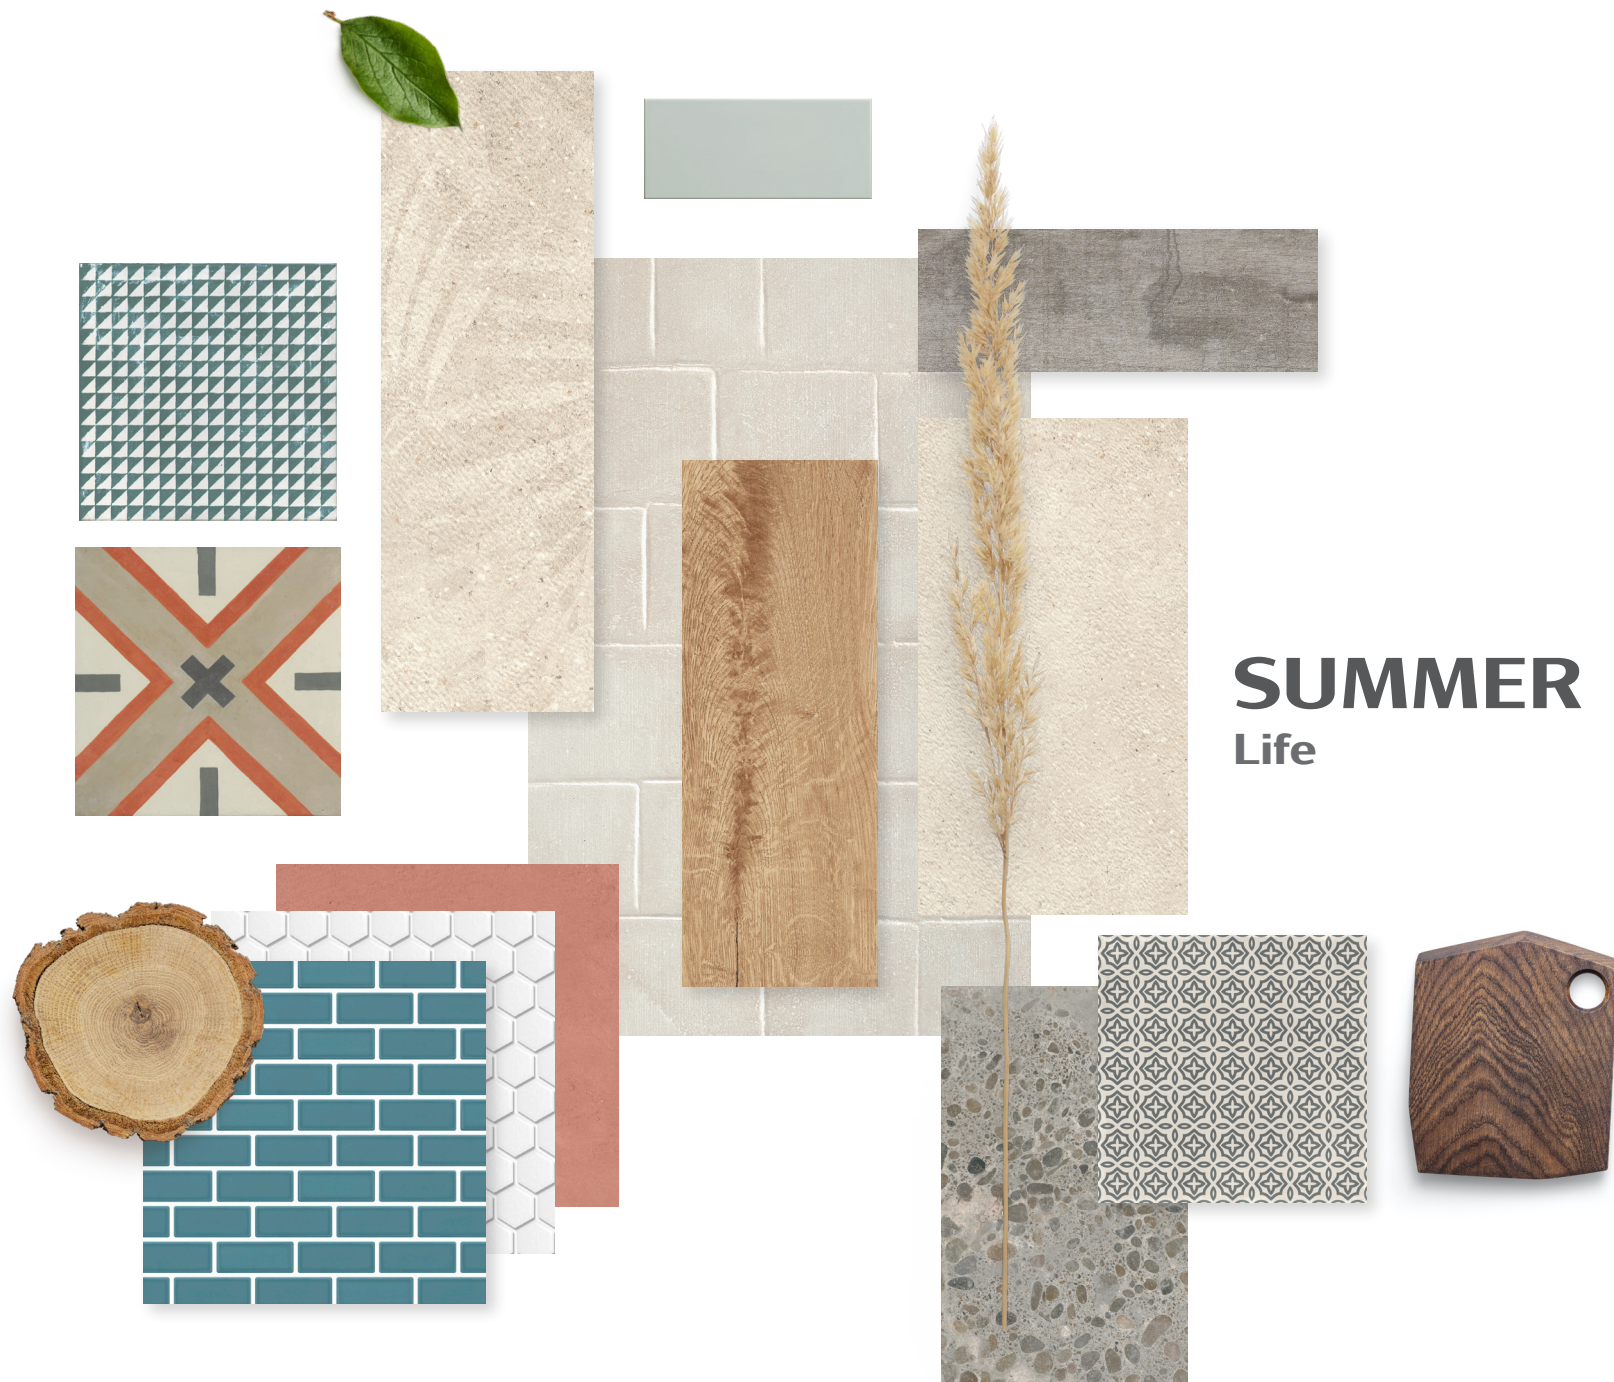

SUMMER Life

Make your habitat natural, fresh, floral, rustic or cheerful according to your preference. Let the warmth of summer evoke natural textures of earth and wood with mustard, green, blue or terracotta tones.

Enhance the brightness and feeling of spaciousness with light colours. Feel the coolness of tile on your bare feet and integrate your garden or terrace with its surroundings. Use soft tones that bring tranquility to your relaxation area. Play with greys that give rise, clear, clean sea water.

Practice summer.

- PIGMENT Multicolor

Oh là là! We have been delighted with this elegant kitchen that the french studio @cderafelis_interiordesign has designed with our Pigment Multicolor terrazzo. Thank you!

rocatile_es

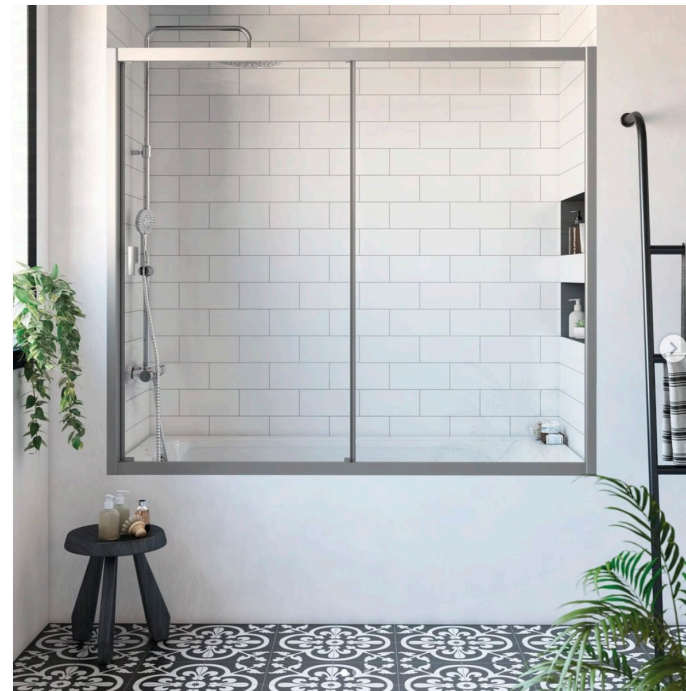

rocatile_es La luz, el paisaje de rocas y sabinas; y en el horizonte el mar y los acantilados recortándose en él. Este enclave privilegiado fue el punto de partida que inspiró el diseño de un icono de la arquitectura vernácula mediterránea: la casa Na Xemená, concebida por el arquitecto y diseñador @ramon_esteve hace más de 20 años.

Cuenta el arquitecto que su ópera prima es el resultado de una estrategia de fragmentación del programa, logrando convertir la planta en un reflejo de la orografía del lugar. Los materiales y acabados están estrechamente ligados al paraje y a la cultura que alberga la construcción.
